

TPE BASED WELDED COVER GASKETS

WHY TPE?

-  **Safe:**
Made with Non toxic materials.
-  **Colorful:**
Wide range of colors.
-  **Durability:**
High UV-Ozone resistance-long lifetime.
-  **Chemical resistance:**
High acid and detergent resistance.
-  **Co-Extrusion:**
Different kinds of TPE materials can be used in the same product.
-  **Excellent compression set value:**
Less plastic deformation and aging.
-  **100% recyclable and environmentally friendly.**
-  **Broad working temperature:**
Works excellent between -40°C and +70°C
-  **Oil-lubricant free:**
No oil-lubricant migration problem.
-  **Rosh, Pah, and REACH compliant.**
-  **Thermal welding:**
Welded ends for a better sealing performance.
-  **Non-flammable:**
Compliant with DIN 4102-01 standards.

APPLICATIONS

Fire Extinguisher
Box / Cabinets

Food storage cases

Barrel top cover plates

Tool boxes

Lighting systems

Electrical cabinets

Toolboxes for Trucks
